

UDAAN 2025

Analytical Paragraph Writing

Practice Sheet

Analytical Paragraph – 1

- The given pie chart represents the amount of money spent by a family on different items in a month. Write an analytical paragraph using the information given in the chart.

Analytical Paragraph – 2

- The given bar graph shows the increasing use of skin care products by men and women over the period of three months. Write an analytical paragraph elaborating the given information.

- Though there is a movement like 'Sarvashiksha Abhiyan' and enrolling of underprivileged children in schools, there are still many children, like the one in the picture, who do not go to school, rather have never seen a school. It is indeed disturbing. You decide to write a letter to the editor of a newspaper expressing your views and the steps to be taken. Take ideas from the MCB unit 'Education'. Write the letter in about 120 words.
- Your grandfather is very upset about the rising prices and keeps thinking of his olden times when things were very cheap. You are convinced that inflation has made life difficult for common man. Write a letter in 100-120 words to the editor of a national daily describing the difficulties faced by poor families.

Solutions

1. The pie chart provides information about the amount of money a family has spent on different items in a month. On an average, the family has spent majorly on grocery which is twenty-three percent of the total expenses. Whereas it has spent 20 percent on education which shows that it's the second priority for the family. The other item on which it has spend the most is clothes and transportation which levels off 19 and 18 percent respectively. Fifteen per-cent of their expenses were on other items that might include stationery, cosmetics, accessories, etc. and the least they had spent was on their rent. The maximum amount was spent on grocery, education, transportation and clothes.
Overall the data shows that they have not spent much on the unnecessary items or miscellaneous. After spending on grocery which is of utmost importance they have spent a significant amount on education. The least money is spent on miscellaneous items after spending on their rent which is their liability. Thus, it is evident that 85% of their total amount of money was spent on their liabilities whereas only 15 percent was spent on other items that might not be necessary to spend on.

2. The given bar graph shows the usage of skin care products by men and women over the time of three months. The products used are facewash, toner and sunscreen.
The bar graph of men shows that the most used product by men is facewash. In the month of June the facewash was used around 33 times, in July 30 times and in August 35 times. The toner was used around 27 times in the month of June, 20 times in July and around 33 times in the month of August. The sunscreen was used 29 times in the month of June, 25 times in July and 32 times in August.
The bar graph of women shows that the most used product is sunscreen. In the month of June the facewash was used 25 times, in July 22 times and in August 24 times The toner was used 22 times in the month of June, in July 25 times and in August 27 times. The Sunscreen being the most used product was used 34 times in June, 29 times in July and 35 times in August. To conclude the given information, the usage of facewash by man saw a rise in the month of August and reached its peak and usage of sunscreen by women saw its rise in the Month of August too, reaching its peak of 35 times of usage.

Subject : Educating the Underprivileged
Sir

Through the columns of your reputed newspaper, I wish to draw your attention towards the movement 'Sarvashiksha Abhiyan' which aims at providing knowledge to all children. Even the act RTE-Right to Education also ensures education for all children between the age of four to fourteen. But these movements and acts do not show themselves implemented anywhere especially in the underprivileged class. There are still many children who do not go to school. They either work as a domestic labour or work in factories, dhabas, etc. It is disturbing to note that our government's plans are not bearing any fruits. It is all because of lack of awareness towards these kinds of movements.

We all need the help of print media as well as electronic media to spread messages of awareness to the masses. The underprivileged children must be made to realize that they have the right to get education. So, they must go to school. The foremost thing is to discourage child-labour so as to give these children a bright future. I hope you will pay attention to this noble cause and publish it in your newspaper.

Thanking you.

Yours sincerely Siddharth Singh

Subject: Rising Prices
Sir

I wish to draw your attention towards the inflation which has made life difficult for common man. It was not so in earlier times when things were very cheap and were within the reach of almost everyone. But the sharp rise in prices of all commodities has made it difficult for a common man to make both his ends meet. He cannot bear even the daily expenses of his family. This is giving rise to disappointments and dejections in their life. Corruption is also on the rise, so as to avoid financial crisis, people are turning towards bribery which is the root cause of all evils. The society is taking a bad turn only because of inflation.

It is high time that the concerned authorities should wake up to this social cause and try to put reins to the rising price so that people can lead a comfortable and peaceful life.

Thanking you.

Yours sincerely Sahil
