Resources and Development

Geography

Lecture – 01

By – Kunal Sir

Topics

to be covered

- 1 Resources
- 2 Resource → Classification
- 3
- 4

**Hanji Dosto !
Mai Douglas .. Apka
Class Monitor ! Kisi ne
shor Machaya to Sir
ko Boldunga**

Aaja Vro ! Tujhe Mast
Kahani Sunata Hu ..
Hui ! Hui ! Hui!

Question

Which among the following will get exhausted or finish if they are overused ?

A Coal

B Solar Power

C Wind Energy

D Both a and b

Khalil.

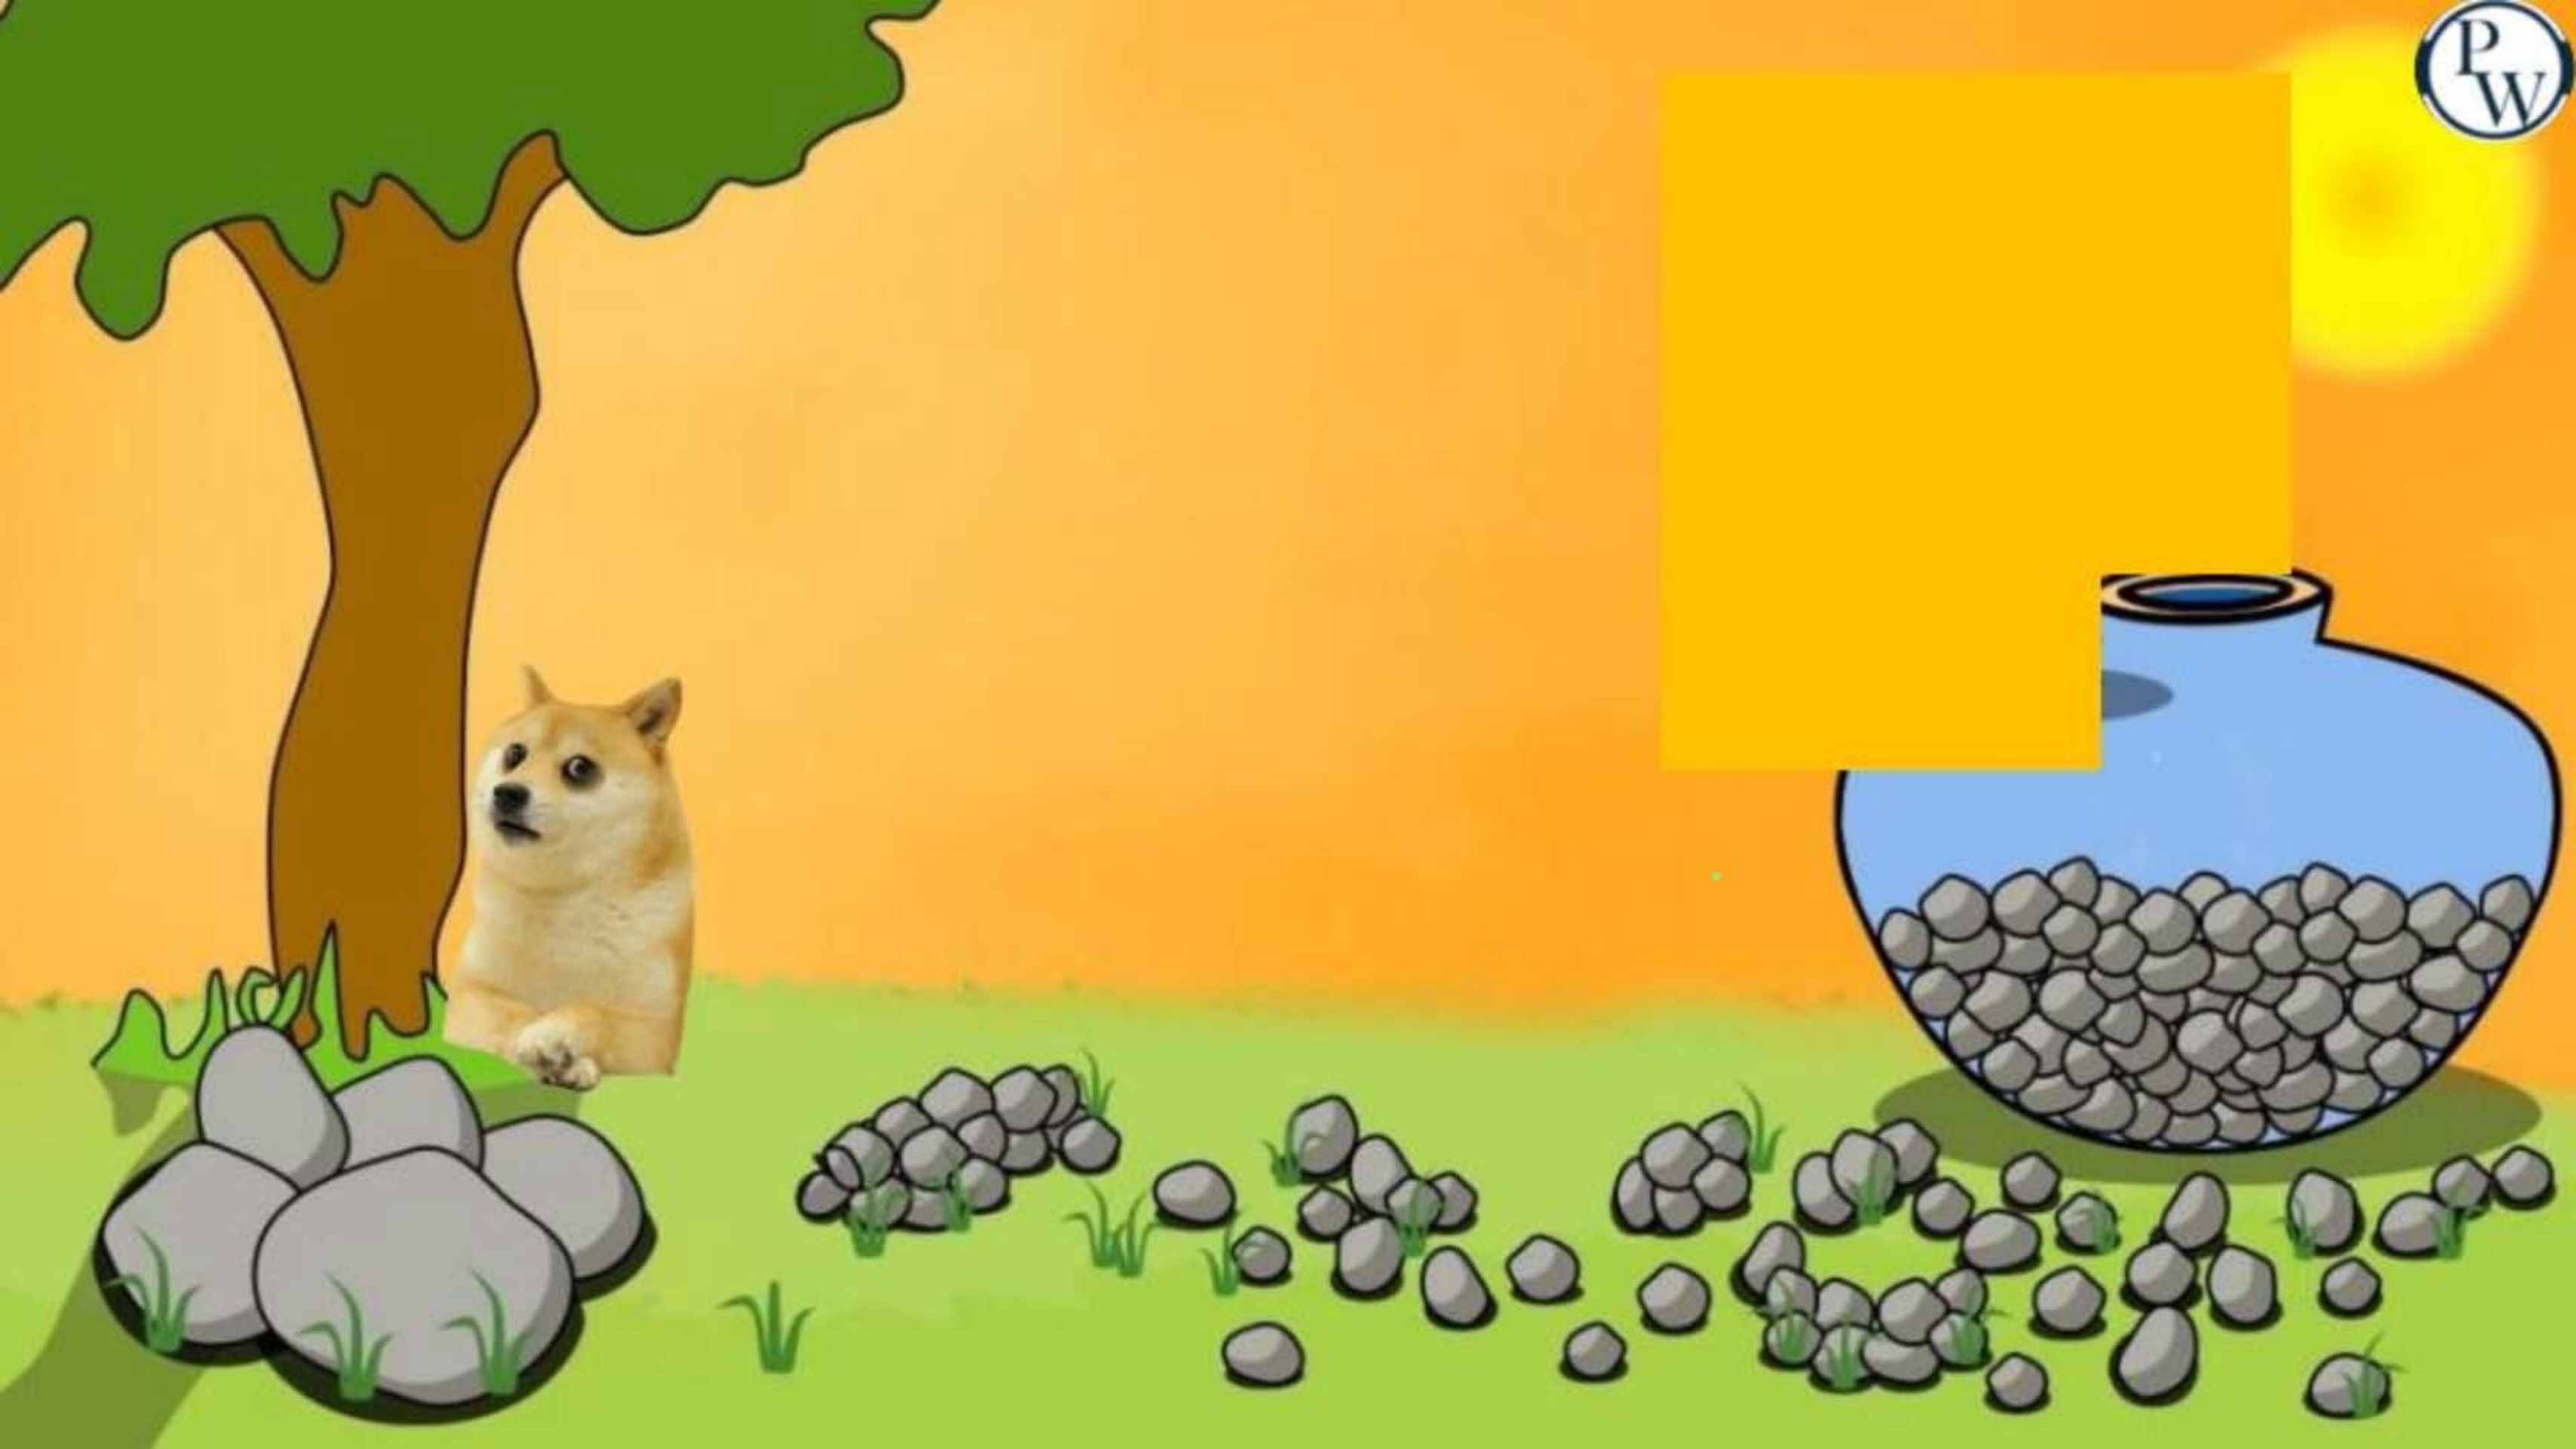

Ques.

Khalil lived in the city of —

- (a) Kolkata
- (b) Beirut
- (c) Lucknow
- (d) Azamgarh

The Thirsty Dogesh

Hui! Hui! Hui!

What Is A Resource ?

↓
Resource is anything present in the environment that can be used to satisfy human needs, provided it is :

- Technologically accessible (should have the technology)
- Economically feasible (affordable)
- Culturally Acceptable (should benefit most of the people)

Question

Controlled by international institutions

On the basis of status of development

Potential Resource

↓
Ex:
parts of Raj.
Gujarat → potential for wind and solar power

Developed Resource

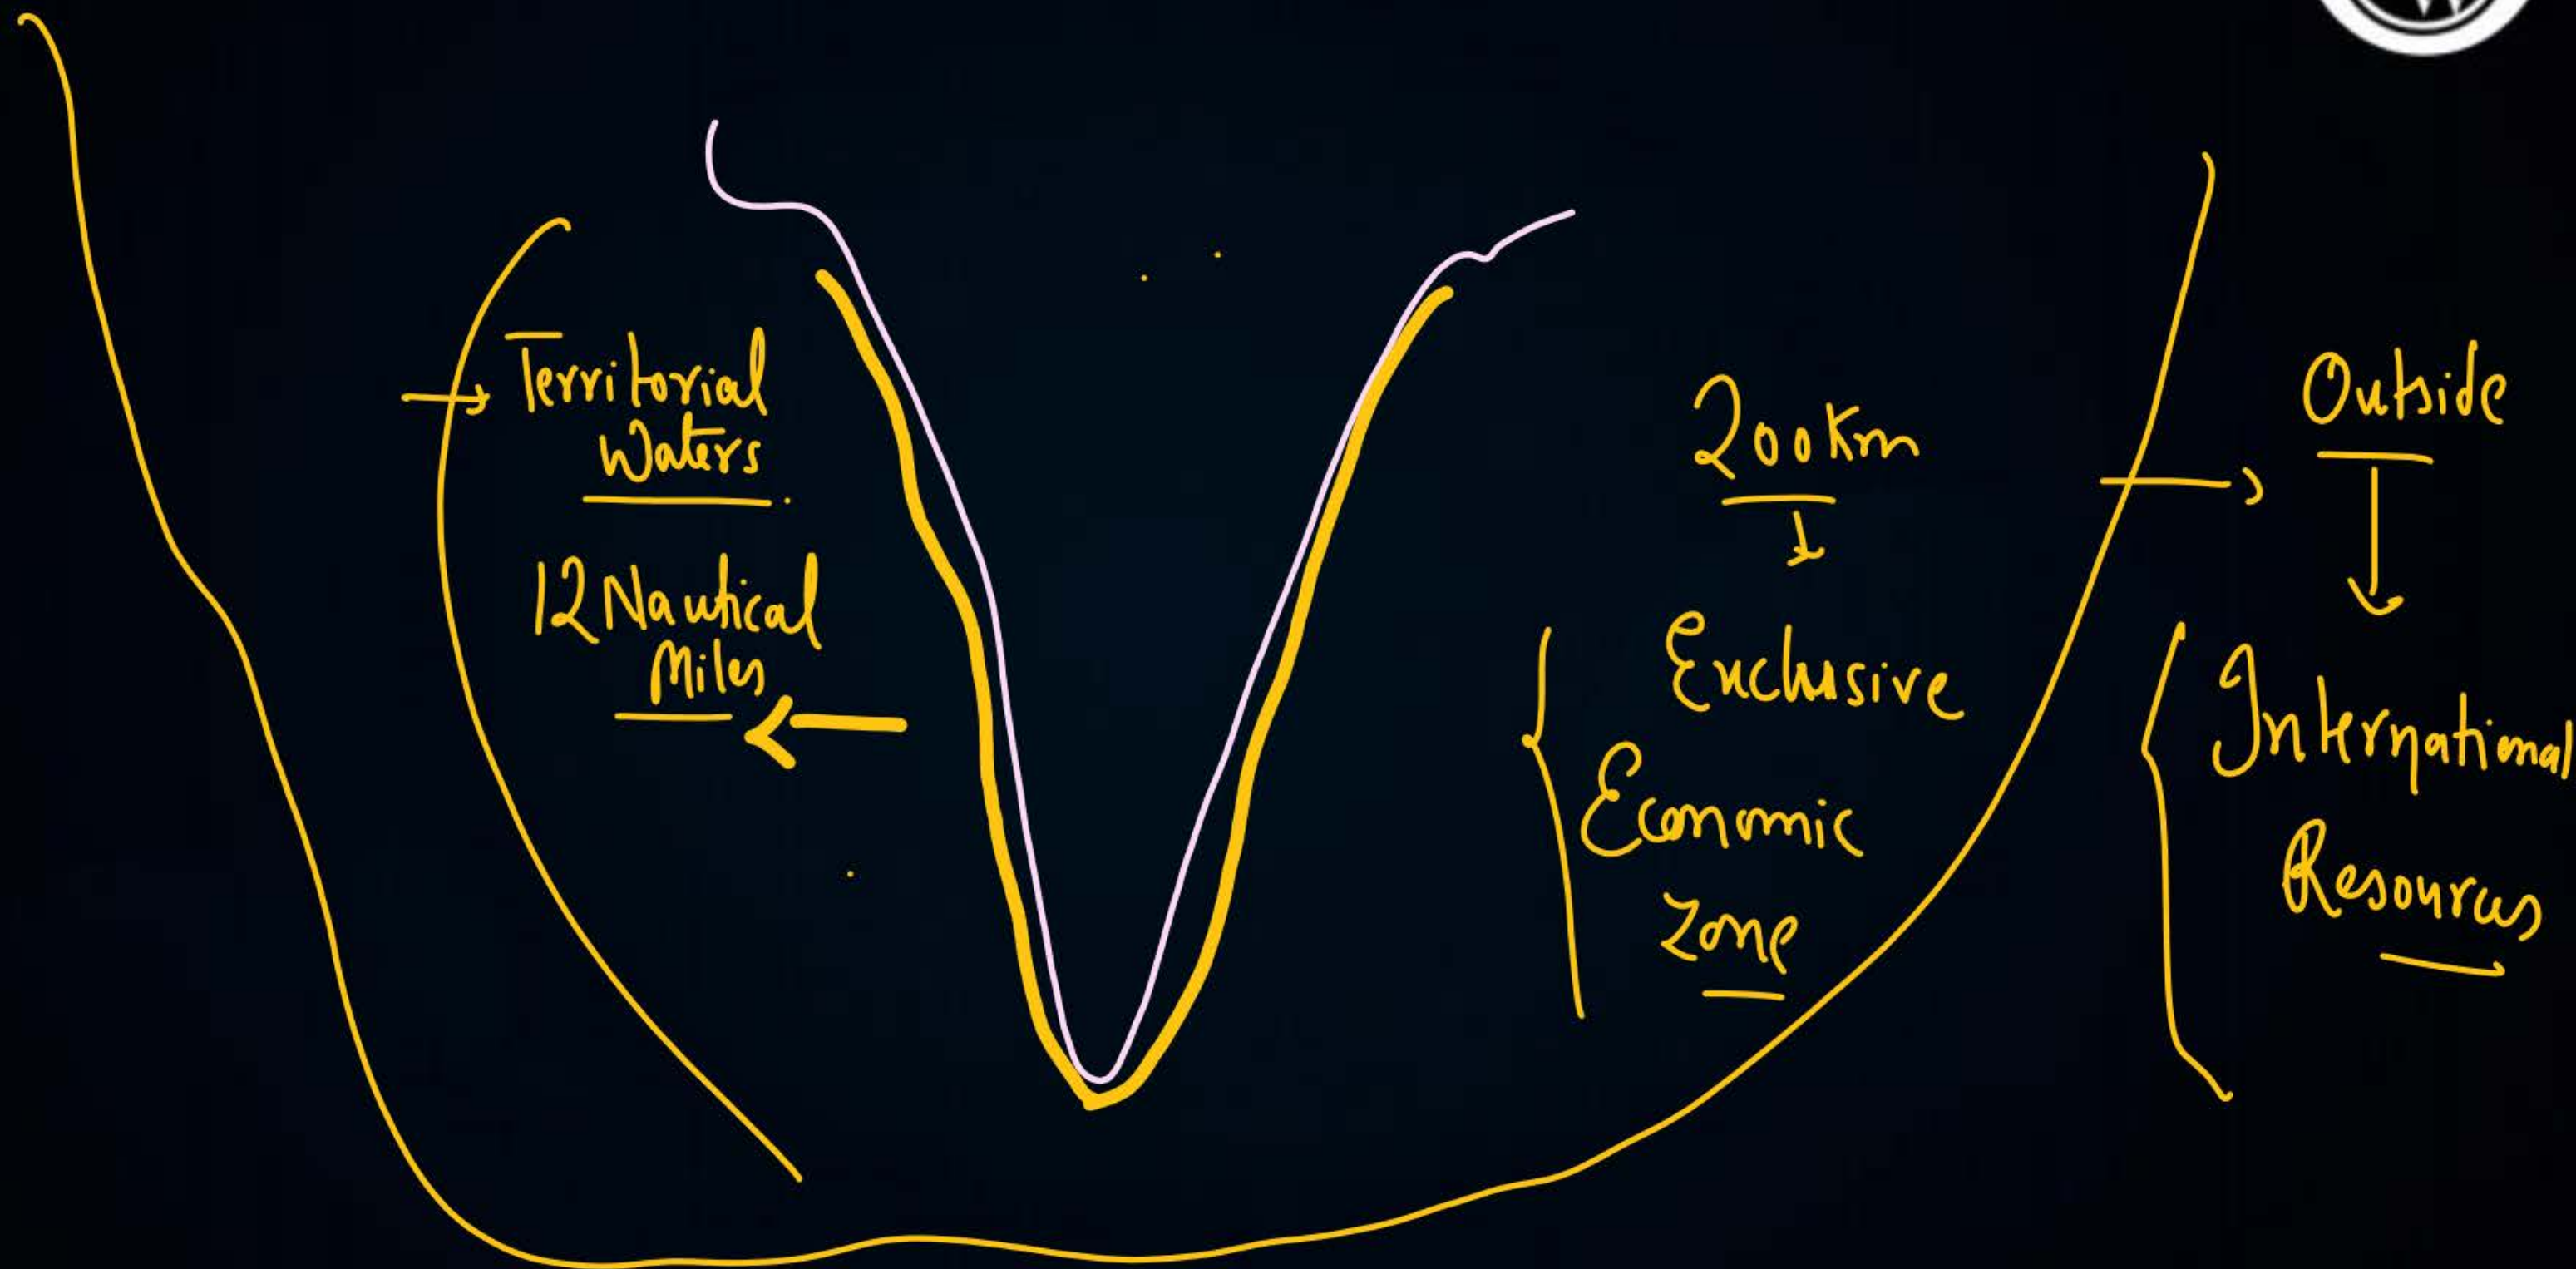

↓
Being used currently

Stock

↓
Can be used with existing technology
Don't have technology to use

Reserves
Stock → subset

↓
Can be used with existing technology
Ex: Hydro power

PTM

Question

Which among the following has the potential for wind and solar energy ? ✓

- A** Rajasthan
- B** Gujarat
- C** Uttar Pradesh
- D** Both a and b ✓

Question

Hydropower is an example of -----

= पानी → बिजली (Electricity)

A Potential Resource

B Developed Resource

C ✓ Reserved Resource

D Stock

Q Resources found in a region but have not been utilised because there is no survey of quantity or quality.

- (a) Stock
- (b) Developed
- (c) Reserve
- ☒ (d) Potential

Homework

Revise the class notes.

THANK
YOU
